Elmherst Gardens

3128 N. Muscatel, Post Office Box 5, Rosemead, California

Our Display Garden is located in the fertile San Gabriel Valley approximately eleven miles from Los Angeles City Hall and five miles south of the City of Pasadena. In driving out Highway 99, 60 or 70 (known at this point as Garvey Boulevard) you will find Muscatel Avenue located about half-way between San Gabriel and Rosemead Boulevards. Turn north at the signal at Muscatel and drive one block to Elmherst Gardens.

TERMS OF SALE

Cash with order, check, draft or money order. No stamps. No C.O.D. orders accepted.

All orders prepaid in the U. S. A. amounting to \$3.00 or over. On orders below this amount add 35c for packing and postage please.

No plant orders accepted for less than \$2.50 except orders called for at the gardens.

Orders filled in rotation as received.

Shipments the entire year with exception of blooming period. Begin shipping Bearded Iris on or after the 15th of June.

Our Guarantee—Our plants are from hardy stock, husky, healthy, pest free, California grown, of the finest grade only.

Correctly labeled and true to name.

If plants arrive in bad condition notify us at once. Transportation costs must be paid by purchaser in case of replacement.

With **Orders of \$3.00 or more we give a bonus.** Please add some extras to your order.

Friends for 1952 we wish to extend to all of you our sincere thanks. For the many fine orders, also the grand cards and letters of praise we are most grateful. We appreciate greatly your generous offers of testimonials for printing in our catalogue. However to keep down printing costs we have decided this year to let our plants and flowers speak again for themselves. In keeping down costs we are able to offer the same choice plants to you at reduced prices. We offer no collections in the catalogue for 1952. Reducing prices enables you to make your own collections choosing varieties you possibly do not now have.

As we are hybridizing as well as growing fine Iris and Daylily hybrids, and have been in horticulture for the past forty-five years, both under glass and out of doors, we feel certain we are qualified to know the best; therefor we offer you only one grade—the finest.

Iris and Daylily hybrids can be grown successfully by anyone. If you have never grown them you are really missing a grand treat.

The newer hybrids are vastly different from the early type flowers. Gorgeous in color and flower types. Thrilling to all who see them unfold for the first time each continuous year.

We hope you will favor us with an order this season, as we feel sure we have the best, and can please you whether the order is large or small.

Please remember California grown plants are hardy, therefore can be successfully grown even in the coldest sections of the United States.

We grow our own stock. Ship anywhere. Ship **only** freshly dug live plants on orders. Guarantee good condition on arrival.

Prompt Service — State Inspected.

Heemerocallis

(DAYLILIES)

The Flower With a Future is one of the most fascinating of all time. Its beauty and charm are outstanding. There is so much to be had for so little effort on the part of the gardener. No known disease, no spraying is necessary. The modern hybrids have a wide range of gorgeous colors. The many types of flowers are amazingly beautiful as well as thrilling. They respond to good treatment, increasing flower size and blooming period.

They should be left in clumps undisturbed for several years for profusion of blossoms. For landscape planting, like the Iris, they are ideal. They will grow in full sun or partial shade giving splendid flowers either place.

We offer the finest of sturdy, healthy plants and seed.

INTRODUCTIONS FOR 1952

The following 1952 introductions were chosen from very choice hybrids out of the gardens of Mr. W. B. Davis, well known hybridizer of Montebello, California.

We therefore are very pleased to be able to offer such beautiful new varieties to our customers.

DOROTHY BOLTON—(Davis 1952) Ht. 30 ins.

A gorgeous wide petaled wavy recurved 5½ inch true venitian pink. Produces a profusion of blooms. Blooming period long. Late night keeper. A good plant producer. Deciduous.

Each \$10.00

CELESTINE—(Davis 1952) Ht. 24 ins.

A huge 6 inch light yellow. Stays open late. Practically every blossom is double. Truly a beautiful flower. Lovely wide evergreen foliage.

Each \$10.00

HONEY GLOW—(Davis 1952) Ht. 20 ins.

Each \$5.00

A splendid flower for the border. Wide petaled medium yellow 4½ inch flowers. Over-lapping petals. Blooms over a long period. Evergreen.

W. B. DAVIS 1951 INTRODUCTIONS

DR. CORLISS—(Davis 1951) Ht. 24 ins.

Very striking salmon shade with large bright red blotch or eye zone. Good bloomer with 4½ inch flowers. Stays open quite late. Evergreen.

Each \$15.00

MERCED GOLD—(Davis 1951) Ht. 36 ins.

Large over-lapping petaled flower. Golden sulfur color. Shaped much like Patricia. Stays open as long as two days in someclimates. Has a long blooming period. Evergreen.

Each \$8.00

Spidery type, red and yellow bicolor.

YELDRIN—Ht. 3½ ft. Each \$.35

Tall, yellow self with back of sepals brown. Slightly reflexed. Brown buds. Very effective for bouquets. Remain open evenings. Prolific and a long bloomer. Flower small.

HEMEROCALLIS

Daylily Bargain Offer

For those of you who want lovely hybrid Day-lilies of different colors, but are not particularly interested in the names, we offer this special bargain. All will be a selection of flowers you will be proud to have. These varieties will vary in heights, with blooming season from early to late. You will be sent colors ranging from pastels to the very brightest. They will be chosen from named varieties, but come to you unlabeled. We feel confident you will be delighted with our choice. Pleasing you means success to us.

Our aim is to acquaint more people each year with Hemerocallis (Daylily) hybrids. This bargain offer is the method by which we do so. We find it making satisfied customers for us, and we thank them for their trust in us.

Daylilies are very fine as cut flowers for arrangements, as well as beautiful in the garden.

If you want something unusually lovely cut individual flowers and arrange in a very low or flat clear glass dish setting it on a completely white background.

12 Plants for \$2.50

Join the Hemerocallis Society

Dues \$3.00 a year. Send to —

Mr. George E. Lenington, Secretary
The Hemerocallis Society
Box 139, Kansas City 10, Missouri

If you prefer send dues to us included with your order. We will be pleased to take care of it for you, including a bonus of plants to you.

WINTER CARNIVAL Each \$.50

Huge flaring pure white captivating in form and substance. Produces blossoms abundantly. Vigorous in plant growth. Brilliant golden throat.

SIBERIAN IRIS

Graceful blooms with beautiful grass-like foliage. Very easy to grow and noted as cut flowers. Wirey flower stalks rise above the foliage producing an abundance of blossoms. This is a beardless type Iris and grows in clumps.

Planting should be done in the fall in ordinary garden soil on the acid side. For this rotted oak leaves are splendid. Should not be allowed to dry out until plants are well established. They are a moisture loving plant, but will grow most anywhere with proper care, in either full sun or partial shade.

Lime and bonemeal are fine for bearded Iris, but not for Siberians or Kaempferi. For these two use fertilizers on the acid side.

For an abundance of flowers leave undisturbed in the garden for several years.

Shipping begins in September.

SNOW QUEEN-38 ins. 30c; 3 for 60c

A very hardy wavy snow white.

CAESAR-42 ins. 30c

Unusually tall, lovely broad-petalled blue-purple.

CAESAR'S BROTHER-32 ins. 40c; 3 for 75c

Tall, dashing velvety blue-black purple.

PSEUDACORUS—(Species) 3 ft. 25c; 3 for 50c

Yellow flowers have good sized rounded falls. Standards vary from mere points to an inch long. Brown veining at the haft. Very prolific and enjoys plenty of moisture. Not a Siberian, but grows under the same conditions, so we list it here.

LOUISIANA IRIS

This charming beardless variety comes into bloom near the end of the Bearded Iris season. It is becoming more popular each year as it becomes better known. For cut flowers and adaptability in landscaping they are tops, if given the proper care.

Their natural locality is a marsh. However, give them a rich soil with plenty of humus, on the acid side if possible, also an abundance of water during the growing and blooming season. They are partial to shade during the hottest part of the day, so pick a spot for planting where this can be accomplished.

Their lovely foliage and gorgeous blossoms add lasting beauty to any garden. They grow easily.

Shipped in Late Summer or Early Fall.

GIGANTICAERULEA—(Species) 60 in. 40c
Very tall, vigorous, beautiful foliaged plant. Huge flowers, upright petals, recurving sepals of a lovely violet blue.

FULVA—(Species) Each 25c
Dainty, coppery brick red blossoms, produced in abundance over a long period. Vigorous in plant and flowers.

DOROTHEA K. WILLIAMSON Hybrid (30 ins.) Each 40c; 3 for 75c
Sparkling, velvety royal purple flowers are excellent for corsages. Produced abundantly over the entire vigorous growing plant. Blooms a long time. A hardy Iris that resembles the orchid.

SPURIA IRIS

Spurias are a beardless type Iris similar in appearance to the Dutch and Spanish. Sometimes referred to as the "butterfly Iris." They are easy to grow being very hardy. Tall growing, therefore are splendid for background planting. Blooming period begins near the end of the Bearded Iris season and they bloom a long time. They are of the finest for cut flowers in arrangements and excellent for corsages. Splendid for landscaping.

Shipments made in the fall.

MONNIERI-3 ft. 40c, 3 for 75c

A lovely soft yellow. Very smooth wide petaled flower, golden orange on the falls.

OGCHROLEUCA-4 1/2 ft. 35c, 3 for 60c

Beautiful tall white with a yellow spot on the falls. A long keeping cut flower.

DAYLILY SEED

Hand-pollinated from our finest hybrids. Very easy to grow from seed. Some will blossom the first year. All should blossom the second year. Mixed seed.

Small packet 25c. Large size 50c
